

Rocky combination ladder

✓ Professional use

- Spreading lock prevents unexpected closure of the ladder
- Flared beams for increased stability
- 3-part Rocky is easy to handle along the façade thanks to top rollers
- For intensive, professional use

Rocky combination ladder. Aluminium box-profiled ladder for professionals

The Rocky is an aluminium box-profiled ladder for professional use. The rounded box profile provides improved grip. It also makes the ladder strong and durable. The combination ladder is multifunctional. Use it as a push-up ladder up a façade or set it up in the A-position. Perfect for every task.

The Rocky is supported by bended beams. Providing safety and stability. The 3-part combination ladder is easy to slide in and out due to the top rolls at the ends. Self-locking spreader protection means no involuntary closure of the ladder during use.

For every job a Rocky

The Rocky combination ladder is available in a 2 or 3 part version, in various lengths up to 8.90 metres.

Working safety at height

If you're choosing safety, choose the Rocky combination ladder. The self-locking spreader protection on the 3-part version prevents the ladder from unexpectedly closure during use.

Durable and strong

The ladder incorporates a rounded box profile. This provides good grip. It also makes the ladder strong and durable.
